## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose the ranges claimed by applicant. With respect to claim 4, the primary reference, Kim, discloses one example wherein the surface hardness of the outer core is higher than the center hardness of the inner core by 18 while the present invention claims a difference between 20 and 30. With respect to claim 5, the primary reference, Kim, discloses one example wherein the surface hardness of the core 15 mm away from the center is higher than the center hardness of the inner core by 19 while the present invention claims a difference between 5 and 15. With respect to claim 6, the primary reference, Kim, discloses one example wherein the surface hardness of the core 15 mm away from the center is 69, while the present invention claims 70 to 80. With respect to claim 7, the primary reference, Kim, discloses one example wherein the surface hardness of the core 15 mm away from the center is higher than the center hardness of the inner core by 19, while the present invention claims a difference between 5 and 15. Kim also discloses the surface hardness of the core 15 mm away from the center is 69 while the present invention claims 70 to 80. The primary reference also fails to disclose the cover composition claimed by applicant, ionomer and thermoplastic elastomer or diene block copolymer mix.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
